

California OES Weather Threat Briefing

Wednesday, October 30, 2019
9:00 AM PDT

- **Day 1:** Across Southern CA, a strong Santa Ana wind event is ongoing and will persist through Thursday evening.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

10/30/19 - 11/05/19

Wednesday-Thursday

- Offshore winds and dry conditions will bring critical fire weather conditions to Northern California through the first part of today
 - Winds will become light across northern CA later today, but dry conditions will persist
- Across Southern CA, a strong Santa Ana wind event is ongoing and will persist through Thursday evening.
 - **This event is on track to be the strongest Santa Ana wind event of the year so far**
 - Wind gusts will continue to peak between 50 and 80 mph, with the highest winds expected across the slopes of the Santa Ana Mountains

Friday-Tuesday

- Winds are expected remain light across the state but will remain offshore through early next week
- Dry conditions will persist but no major wind events are forecast for the next week
